PROFESSIONAL SUMMARY

Mechanical Engineering student with strong skills in design, visualization, and problem-solving. Experienced in CAD modeling and industrial process analysis. Passionate about engineering design and eager to build a career in steel detailing and structural design.

SKILLS

- SolidWorks
- MS Office (Excel, Word, PowerPoint)
- Drawing & Sketching
- NX CAD
- Basics IoT System (ESP32,Sensors)
- Visualization

EXPERIENCE

Intern | BHEL – Trichy | August 2024

- Assisted in basics research and understanding of industrial operations.
- Observed mechanical system and workflow process.

Intern | SRF Limited – Viralimalai | [14 – 31 July]

- Analysed twisting process using MEERA Twister machines.
- Identified causes of yarn waste (break bobbins) through data analysis.
- Suggested improvements including preventive maintenance and sensor calibration.
- Contributed to improving efficiency and reducing material loss.
- Textile Division

EDUCATION

Government College of Engineering – Srirangam – 620012

Final Year | B.E Mechanical Engineering [2022 – 2026]

CGPA: 7.7/10

Higher Secondary Education [2020 – 2021] Percentage: **86.92%**	Sri Vidya Mandir Matric Hr. Sec School – Thuraiyur, Tiruchirappalli
Secondary Education [2018 – 2019] Percentage: **87.6%**	

ADDITIONAL INFORMATION

- Strong interest in design and engineering drawing
- Highly motivated and willing to learn new tools (Tekla, CAD software)
- Able to work under guidance and handle responsibilities effectively
